A Free Dental Screening Day

On Tuesday, December 14th 2010 starting @ 1:00 pm we will be providing free dental screenings and fluoride treatments to participants between the ages of 2 and 19.

All that is required is a short medical history and consent form to be completed in full by the parent/guardian prior to the screening day and a clean smile to screen.

Each participant will receive an oral hygiene package filled with oral hygiene supplies to 'Keep Your Smile Awhile'.

This screening day is part of our mission to become better Global Citizens and there will be opportunities for you to participate in fun activities or donate to our volunteer dental trip to Ecuador with Kindness in Action.

For more information, please call Pastor Klassen 758-9334
